

DEUTSCHE BÖRSE GROUP

Deutsche Börse Group is one of the largest exchange organisations worldwide. It organises markets characterised by integrity, transparency and safety for investors who invest capital and for companies that raise capital – markets on which professional traders buy and sell equities, derivatives and other financial instruments according to clear rules and under strict supervision. Deutsche Börse Group, with its services and systems, ensures the functioning of these markets and a level playing field for all participants – worldwide. With its process-oriented business model, Deutsche Börse increases the efficiency of capital markets. At the same time, innovation and international growth are important factors of our success. Without committed staff Deutsche Börse Group would not have developed into one of the most modern exchange organisations in the world. More than 5,300 employees work for the Group – a dynamic, highly motivated and international team.

Start your international career at Deutsche Börse Group!

We offer graduate positions across IT, Finance, Business Development and Operations. While your focus will be in one area, of course you will have the opportunity to learn about the other areas as well.

IT – Be part of the solution!

In an IT role within Deutsche Börse Group, you will be working on the most exciting infrastructure for exchange trading and subsequent processes in our value chain. More than 30 exchanges and trading platforms around the world are operated with the Group's technology and many international financial services providers use its technology services. New technologies play a central role for the success of Deutsche Börse Group and we continue to invest in our technology with a focus on innovation, advancements and efficiency.

Who are we looking for?

Having graduated in Information Technology or Computer Science, you will have a genuine interest in the IT world of one of the largest exchange organisations worldwide. We're looking for passionate and highly motivated employees and people with a genuine interest in technology/ network services. Our ideal candidate must be highly motivated and inquisitive, proactive and able to work independently as well as in a team and under pressure. You should be proficient in written and spoken English and willing to gain international experience with teams on cross-divisional and cross-locational bases. Previous work experience will be highly regarded.
