We are hiring

Software Engineer (m/w) METEOR/NODE/REACT

Rightmart is a young startup in the legal-tech area which is about to disrupt the legal industry. In order to achieve this goal, we develop our own software that supports the workflows in a modern law firm and at the same time facilitates access to legal advice for a potential client.

To showcase our software, we founded our own rightmart-lawfirm which is using our software and demonstrates how a modern law firm should operate nowadays.

Over the last 12 month rightmart has grown rapidly and we are 20 „rightsmarties“ already. Software developing is our main motivation and therefore we are looking for software developers who want to enforce our team.

your profile

- Very good knowledge in JavaScript-App-development
- Very good knowledge in Framework Meteor and NodeJS
- Very good knowledge in ReactJS
- High quality awareness and ability to learn

we offer

- Modern start-up atmosphere and a great team
- witnessing the disruption of the legal industry
- creating new products
- Permanent employment or Werkstudent-Job
- of course free coffee, drinks, fruits etc.

We are looking forward to receiving your applications to: bewerbung@rightmart.de
