

VOLKSWAGEN

GROUP CHINA

Company Profile

Volkswagen Group is one of the earliest and most successful international automakers in China's automobile industry. The Group has grown together with China's auto industry, overcoming many challenges and achieving significant growths, during the 30 years' partnership with China.

The business scope of Volkswagen Group in China includes the production, sales and services of complete vehicles and parts, such as engines and transmissions. All of the Group auto brands — including Volkswagen, Audi, ŠKODA, SEAT, Bentley, Bugatti, Lamborghini, Porsche, Ducati, Volkswagen Commercial Vehicles, Scania and MAN — have a business presence in China its subsidiaries.

Strategy 2018 is guiding us to becoming the world's top employer by 2018, as well as China's most successful, innovative and sustainable automaker.

With the "Ren Wei Ben" (people-oriented) strategy, Volkswagen Group China is driving to become a truly people oriented car company.
