

NSW (Norddeutsche Seekabelwerke GmbH) is a leading manufacturer of submarine communications, power, offshore and overhead cables as well as engineering plastics and environmental products. For over 115 years, NSW has been committed to the expansion and improvement of communications and serves customers all over the world. Since 2007 NSW is a wholly-owned subsidiary of General Cable Corporation having 38 manufacturing facilities in core operating regions and sales representation and distribution worldwide.

We are looking for a

Student Assistant Sales / Werkstudent Vertrieb (m/w)

to support our (Subsea Power Cables) Sales Department in Nordenham. The initial duration is 12 month

What you'll do:

- Standardization of the offer process
- Assist in generating data sheets summarizing technical characteristics and performance of power cables
- Project-specific calculations with customized software tools
- Evaluation of international tender data-bases
- Assist with production and management of project documentation

Who we're looking for:

- You study engineering, physics or economics
- You are fluent in English and have at least basic knowledge of German
- You have good IT-Skills; knowing Mathcad is an advantage
- You are a self-starter and well-structured analytical thinker

What we offer:

- You will work in a dynamic team of experts
- Flexible working hours, that will enable you to meet your student obligations
- An attractive salary in line with the bargaining agreement of the German metal and electric industry

Are you interested in this multi-purpose position? Don't hesitate to contact us and send us your application via email to nsw.hr@nsw.com (Human Resources Department)
