

4flow consulting.

Jan-Moritz, 4flow consulting

As an award-winning employer and full-range provider of supply chain optimization services, 4flow combines consulting, software development, and integrated supply chain services into one innovative business model. 4flow consulting advises companies around the world on logistics and supply chain management, from strategy to implementation.

4flow is continuing its successful growth again this year. Grow with us, and become part of an excellent team at our offices in Berlin, Düsseldorf, Frankfurt, Hamburg or Munich as a:

## Junior Consultant Logistics & Supply Chain Management

### Your responsibilities

- Perform diverse tasks as part of consulting projects for international clients from sectors including automotive, retail, and industrial machinery
- Optimize complex supply chains and identify optimization potential in collaboration with experienced 4flow consultants
- Contribute to the development of tailored and innovative solutions with measurable results
- Implement the developed concepts while working closely with our clients
- Participate in internal optimization projects and support knowledge management at 4flow

### Your profile

- Bachelor's or master's degree in industrial engineering, business administration, supply chain management, business mathematics or a comparable field with above-average grades
- At least 4 months of practical experience in supply chain management, manufacturing or consulting
- Very good understanding of processes, strong analytical skills and conceptual aptitude
- Confident demeanor, strong communication skills, excellent English, and preferably international experience

We are offering a challenging position with excellent opportunities for your personal growth. Benefit from multifaceted projects in an international environment, working with experienced colleagues, an award-winning company culture and focused, individualized training for your professional and personal development.
