

Growth Strategy Analyst – Working Student (f/m)

Who are we?

R⁴ brings artificial intelligence to the core of the enterprise. Our platform helps the largest companies in the world remain competitive by optimizing and automating P&L driving actions using massive amounts of data and applied machine learning techniques. Feeding intelligent recommendations into existing systems and processes, making them smarter on the go.

Founded by the founders of priceline.com, pioneers in applying data science to the travel & bookings industries and is run by veterans from the technology, consulting and industry backgrounds. Headquartered in Connecticut, USA, with offices in San Francisco, Miami, New York, Berlin, London and Munich.

With a strong foundation in the Americas, we're now expanding rapidly in Europe and are looking for support.

Who are you?

- Smart, driven, flexible individual with an attitude to get things done
- Entrepreneurial mindset & ability to work independently

- **Solid research & presentation creation / design skills**
- Ability to understand and communicate business problems & technical topics in simple words
- Technical background preferred but not mandatory – affinity for technology way more important
- Languages: Perfect English, German preferred but not mandatory

Parameters:

- Work directly with our senior leadership in the development of our market entry strategies for specific sectors
- Develop primary market and competitor research across various industries particularly in the context of Artificial Intelligence and its applications – whitepapers, presentations etc
- Support in the development of client proposals & marketing materials
- Work from home or Munich / Berlin with flexible hours and strong compensation
- A very innovative and entrepreneurial environment in the most cutting edge enterprise tech space
- Learn the B2B sales cycle and understand the enterprise software industry
- Start: Yesterday
- Duration: 3 months with room to extend
