

(Junior) Business Intelligence Analyst (m/f)

We are the leading brand for fitness food in Europe and need YOU to join us on our mission to make the world a healthier and happier place. Our ambitious team consists of over 45 international employees and we serve 10+ European markets.

You will be part of a fast-paced environment and work with cross-functional teams in our brand new office located in a historical building adjacent a large, green park in Frankfurt/Wiesbaden, Germany.

YOUR RESPONSIBILITIES

- Reporting, analytics, and data integration
- Drive vision and strategy for all data management activities
- Enable data-driven decision making by retrieving, aggregating, and building reports from in house data
- Help the organisation to solve issues, create value, and improve business performance by generating insights from data analysis
- Enable business and strategy teams to transform initiatives into action

YOUR QUALIFICATIONS

- You have first relevant working experience in managing data-driven decision making
- BSc./MSc. degree in Mathematics, Statistics, Business Administration, or other related studies
- Expertise in data modeling and excellent Excel skills
- Fluent in English

WHAT WE OFFER

- A position with high degrees of responsibility and autonomy for the ambitious individual
- Being part of a fast growing startup with the mission to change the world
- Working together with a highly talented, dynamic, and international team
- Plenty of room for personal growth, professional development and high impact
- Attractive employee benefits
