Diploma or Master's Thesis (m/f) Bremen

Full-time or Part-time (Permanent Position)

Ubimax develops industrial Wearable Computing and Augmented Reality solutions, which enable customers to optimize their business processes along their entire value chain. The core of our offering is Ubimax Frontline, the world's first fully integrated Wearable Computing Platform. Our innovative Smart Glass solutions are already deployed successfully by 30% of the DAX 30 companies. We are a fast-growing company and looking for individuals who share our passion for Wearables and Augmented Reality.

Our Performance

- > We provide support through our experienced consultants and software developers in conceptualization and preparation of empirical and practice-oriented diploma or master theses

Your Profile

- > Intermediate diploma or bachelor degree in business computing, economics, engineering or comparable IT-related course of studies with excellent achievements
- > Strong understanding of field of specialization
- > Programming skills and experience in at least one common programming language
- > Experience in the independent production of studies and profitability analyses as well as summarization and organization of complex contexts
- > Ability to prepare and present information in a structured way
- > Advanced knowledge in Microsoft Office
- > High personal standards
- > Proficiency in German and English
- > Driven by creativity in problem solving and researching new sources of information
- > Strong commitment to achievement of milestones
- > Self-reliant, team-oriented work ethic
- > Last but not least, a sense of humor!

We offer

- > Innovative, diverse and interdisciplinary fields
- > Freedom for self-reliant work and development of own ideas
- > Flexible working hours and flat hierarchies
- > Becoming part of an international team of AR and Wearable Computing experts
- > Optimal working conditions, utilizing state-of-the-art tools and devices
- > "Silicon Valley style" open space office on 1500 m² at Bremer Europahafen
