...The world of Wearable Computing and Augmented Reality is just a click away! Apply today and become part of our fabulous team! career@ubimax.com

Intern (m/f) Augmented Reality Development Bremen

At least 3 months

Ubimax develops industrial Wearable Computing and Augmented Reality solutions, which enable customers to optimize their business processes along their entire value chain. The core of our offering is Ubimax Frontline, the world's first fully integrated Wearable Computing Platform. Our innovative Smart Glass solutions are already deployed successfully by 30% of the DAX 30 companies. We are a fast-growing company and looking for individuals who share our passion for Wearables and Augmented Reality.

Your Responsibilities

- > Develop AR-software solutions in industrial environments for AR Smart Glasses
- > Assist in customer projects and product development
- > Actively advance and secure our technological lead
- > Actively contribute to our development
- > Take on a dynamic role in the implementation and improvement of our processes

Your Profile

- > Advanced or completed studies or educational background in the areas of IT, Digital Media or similar with excellent achievements
- > Experience with AR Frameworks as Wikitude, Vuforia or Unity are preferable
- > Ideally, extensive knowledge of image recognition and processing algorithms
- > High personal standards
- > Self-reliant and team-oriented work ethic
- > Last but not least, a sense of humor!

We offer

- > Innovative, diverse and interdisciplinary fields
- > Freedom for self-reliant work and development of own ideas
- > Flexible working hours and flat hierarchies
- > Becoming part of an international team of AR and Wearable Computing experts
- > Optimal working conditions, utilizing state-of-the-art tools and devices
- > "Silicon Valley style" open space office on 1500 m² at Bremer Europahafen
