Software Developer (m/f) Bremen

Full-time or Part-time (Permanent Position)

Ubimax develops industrial Wearable Computing and Augmented Reality solutions, which enable customers to optimize their business processes along their entire value chain. The core of our offering is Ubimax Frontline, the world's first fully integrated Wearable Computing Platform. Our innovative Smart Glass solutions are already deployed successfully by 30% of the DAX 30 companies. We are a fast-growing company and looking for individuals who share our passion for Wearables and Augmented Reality.

Your Responsibilities

- > Enhance our development team as Software Developer
- > Handle a variety of frontend and backend software development tasks
- > Together with our product team, you expand the technological advantage of Ubimax Frontline
- > Actively contribute to the implementation and improvement of our agile development processes, incorporating your own ideas

Your Profile

- > You are well versed in Android and Java
- > Ideally, you already have experience with our technology stack (Spring Boot, AngularJS, Android, Unity)
- > You are keen to know more about new technologies, frameworks and hardware
- > Software development is more than just programming to you

We offer

- > Becoming part of an international team of AR and Wearable Computing experts
- > Flexible working hours and flat hierarchies
- > Freedom for self-directed work and development of own ideas
- > "Silicon Valley Style" open space office at Bremer Europahafen
- > As international team, we communicate in English and German
- > Coffee and hot chocolate, as much as you wish

Convinced?
