Software Tester (m/f) Bremen

Full-time or Part-time (Permanent Position)

Ubimax develops industrial Wearable Computing and Augmented Reality solutions, which enable customers to optimize their business processes along their entire value chain. The core of our offering is Ubimax Frontline, the world's first fully integrated Wearable Computing Platform. Our innovative Smart Glass solutions are already deployed successfully by 30% of the DAX 30 companies. We are a fast-growing company and looking for individuals who share our passion for Wearables and Augmented Reality.

Your Responsibilities

- > Conduct software tests based on a test plan
- > Record and trace errors found
- > As part of our software development team, you contribute to our agile development process
- > Maintenance of our technical instructions, knowledgebase articles, FAQs, product descriptions and manuals for our customers

Your Profile

- > Technical understanding
- > Ideally experienced in software testing
- > Preferably experience in ticketing systems, e.g. JIRA
- > High personal standards of quality

We offer

- > Becoming part of an international team of AR and Wearable Computing experts
- > Flexible working hours and flat hierarchies
- > Freedom for self-directed work and development of own ideas
- > In our international team, we communicate in German and English
- > "Silicon Valley Style" open space office at Bremer Europahafen
- > Coffee and hot chocolate as much as you wish
