

WordPress Developer

Vitapio is the new solution for Recruiting, Sourcing & Staffing!
... we are looking for

interns

full-time

student employees

part-time

remote

Your tasks

-  Creation of Responsive Websites, Blogs and Microsites based on WordPress
-  Development and adaptation of templates and plugins
-  Technical maintenance and support of existing WordPress projects
-  Performance and Security Optimization
-  Bug fixing and support
-  Recording of customer requirements and implementation of a partial or complete project
-  Cooperation and coordination with the entire team

Your profile

-  Interest in websites, WordPress and appealing design
-  Very good knowledge of HTML, CSS, PHP, WordPress and modern JavaScript
-  Good documentation skills of technical texts and user stories
-  Doer mentality and fun to implement innovative projects in a team
-  Interest in Performance, Usability & Security
-  Reliability, motivation and loyalty in the daily working environment
-  Front- and backend should be no foreign words for you ;-)

Our Benefits

The opportunity to shape and design something completely new right from the start.

The chance to implement your own ideas instead of sticking to rigid processes.

Appreciation lived and, of course, a salary appropriate for the position.

Good traffic connections - also suitable for commuters from Hamburg, Oldenburg and the surroundings.

Monthly financial subsidy for fitness, yoga, club dancing and other sports activities that provide compensation.

Internships for students and other interested people possible at any time and of course remunerated.
